SUMMARY

• Microsoft Certified Technology Specialist (Web Applications Development and SQL Server 2014, Database Development) with expertise in Dot Net and SQL Server.

• 4+ years of experience in software development, proficient in C#, OOPS, .Net Core Web API, MVC 5, EF, EF Core, ADO.Net, LINQ, Web API, and jQuery.

• Skilled in working independently and collaboratively in teams.

• Proficient in writing SQL queries and Stored Procedures.

• Self-motivated with effective prioritization skills to meet immediate and long-term goals and operational deadlines.

• Quick learner, adept at adopting new technologies.

EXPERIENCE

Dot Net Developer
Vision India Services Private Limited   September 2019 - Present, Sector 67 Noida

PROJECTS

www.justjob.co.in (Just Job)
Vision India Services Private Limited • September 2019 -July 2023

• The system incorporates Employer Profile Creation, enables Calling Feature for Recruiters, facilitates Recruiter Functionality, allows Job Seeker Registration, and supports Admin Functionality.

• The development utilizes technical tools such as Dot Net Core Web API, jQuery, JavaScript, ASP.NET, ADO.NET, and C#. The backend implementation involves utilizing SQL Server 2014. The role involves actively implementing the modules with a collaborative team.

• Developed and deployed web application according to project specifications within specified timelines resulting in 20% increase in user engagement and 10% improvement in revenue. Implemented system integrations, database queries, store procedures, user interface design, and debugging to maintain and improve delivery of products.

www.liveskills.in (Live Skills)
Live Skills Global Private Limited • April 2020 -July 2023

• The Live Skills Portal encompasses user and admin modules. Users can register, select courses, subscribe to additional modules, and earn certificates upon completion.

• They can also participate in online classes, acquire course materials, complete assessments, and progress to the next module.

• Admins oversee course and sector management, generate daily registration reports, manage batch and class details, handle student feedback, approve certificates and content, and validate assessment questions.

• The assigned role entails actively implementing the modules alongside a collaborative team. Technical tools utilized include JavaScript, ASP.NET, ADO.NET, and C#. The backend powered by SQL Server 2014.

Employee Self Help App (VISION TIME)
Vision India Service Private Limited • September 2019 -July 2023

• The system integrates Attendance, Leave Management, HR Support, IT Support, and Salary Slip modules. Employees mark attendance through the app, capturing images and locations for payroll processing. They request for Attendance approval.

• HR and IT departments offer assistance. Employees can download salary slips.

• The team collaboratively implements the modules using .Net Core Web API, Asp.Net, Ado.Net, JavaScript, jQuery, HTML, CSS. SQL Server 2014 serves as the backend.

PAYROLL MANAGEMENT SYSTEM
Vision India Services Private Limited • July 2020 -July 2023

• The system integrates HR, Payroll Team, Finance Team, and Admin modules. HR uploads monthly attendance data in Excel format or automatically fetches and submits it from the attendance system. The Payroll Team verifies attendance, calculates salary drafts, and processes payroll. Finance Approval and salary slip creation.

• Technical tools such as JavaScript, Asp.Net, Ado.Net, Web API, and C# utilized. The backend operates on SQL Server 2014.

• The implementation process involves collaborative efforts. The system aims to achieve an 85% reduction in manual operations, enhance data accuracy, and improve efficiency by 40%.

INVOICE MANAGEMENT SYSTEM
Vision India Services Private Limited • January 2020 -July 2023

• The system encompasses Finance team, Approver, and Payroll team modules. The Payroll Team adds draft invoices, automatically calculates service charges and tax GST based on the invoice and client's state. The team uploads invoice details using an Excel file. The Approver reviews and approves or disapproves invoices upon receiving an approval email, which notifies the Finance team.

• The Approver can also add and approve draft invoices. The Finance Team holds final approval authority, generating invoice numbers and creating credit notes. Reporting functionality also available to all roles.

• The system utilizes JavaScript, Asp.Net, Ado.Net, and C#. The backend operates on SQL Server 2014. The assigned role involves implementing the modules.

PROJEECT MANAGEMENT SYSTEM
North Star Techno Services Private Limited • January 2020 -July 2023

• The system includes Calling Module, Material Management, Approver Team, and Center Manager modules.

• The team collects offline data and uploads it via an Excel file. The BPO team contacts interested customers. Center Managers assign supervisors for customer visits. Material Management involves purchase requests, approval by Center Project Manager, OPS, and Finance teams.

• Purchase order generated, and items managed in stock, supplied, or returned. All modules support report generation.

• Technical tools used Asp.Net MVC, Ado.Net, JavaScript, jQuery, HTML, CSS. Backend SQL Server 2014. The role involves collaborative implementation of the modules.

EDUCATION

Master of Computer Application
Minor in Computer Applications • A.P.J. Abdul Kalam Technical University • Lucknow, UP • 2019

Bachelor of Computer Application
Minor in Computer Applications • Mahatma Jyotiba Phule Rohilkhand University • Bareilly, UP • 2017

12th Education
Minor in Mathematics • F a t e h g a n j (west) Bareilly, UP • 2 0 1 4

10th Education
Minor in Mathematics • F a t e h g a n j (west) Bareilly, UP • 2 0 1 2

CERTIFICATIONS

Training Certification
Cetpa InfoTech • 2019
• 6 Months Training Certification in Asp.net, MVC & WEB API.

INVOLVEMENT

Team Leader
Vision India Services Private Limited • April 2023 – Present

Senior Software Developer
Vision India Services Private Limited • April 2022 – March 2023

Executive Software Developer
Vision India Services Private Limited • July 2021 – March 2022

Officer Software Development
Vision India Services Private Limited • September 2019 - June 2021

SKILLS

• **Programming: Proficient in developing applications using .NET Core Web API, MVC, jQuery, Entity Framework, LINQ, ASP.NET, ADO.NET, and C#. Skilled in creating and consuming Web APIs.**
• **RDBMS: Experienced in working with Microsoft SQL Server 2014/2012/2008, proficient in writing SQL queries, stored procedures, and managing database operations.**
• **Tools: Proficient in using Microsoft Visual Studio versions 2019/2017/2015/2013/2012 for software development, debugging, and deployment.**
• **Microsoft Office: Proficient in using Microsoft Word, PowerPoint, and Excel for creating professional documents and presentations**
